Variation application number

EPR/NB3339RH/V007

Permit number

EPR/NB3339RH

Hafod Yard Transfer Station

Permit number EPR/NB3339RH

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation is to increase the hazardous waste storage limit to 50 tonnes at any one time. Relevant storage capacity thresholds have been included in the permit to reflect the legal waste facility operational limits; above which, the site would be operating as an Industrial Emissions Directive installation these limits have been included in Table S1.1.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Waste Management Licence issued EAWML 100343	03/12/08	Original permit for a household, commercial and industrial waste transfer station with treatment, asbestos storage and vehicle depollution and dismantling (authorised treatment) facility issued to Mr Michael Davies trading as M and J T Davies Group.
Part transfer determined EPR/CB3133RG (formerly EAWML 100343)	09/08/11	Partial transfer of permit complete: <ul style="list-style-type: none"> • Varied permit EPR/CB3133RG issued to Mr Michael Davies. • New permit EPR/WP3990VL issued to Mr Nigel Harper to operate a household, commercial and industrial waste transfer station with treatment only.
Transfer determined EPR/NB3339RH	01/02/13	Full transfer of permit EPR/CB3133RG issued to Enviroclear Site Services Limited.
Variation determined EPR/NB3339RH/V002	18/12/13	Operator initiated administrative variation to add new waste codes and associated conditions issued.
Variation determined EPR/NB3339RH/V003	23/06/15	Operator initiated administrative variation to add new waste codes issued.
Variation determined EPR/NB3339RH/V004	08/01/16	Operator initiated administrative variation to add new waste codes issued.
Variation determined EPR/NB3339RH/V005	14/03/17	Variation issued: <ul style="list-style-type: none"> • Operator initiated variation to add new waste codes; and a • Regulator initiated variation to update and consolidate the permit.

Status log of the permit		
Description	Date	Comments
Variation issued EPR/NB3339RH/V006	01/05/19	Variation to add 20 01 99 – Sharps issued
Application EPR/NB3339RH/V007	Duly made 30/05/19	Application to increase hazardous waste storage limit to 50 tonnes at any one time
Schedule 5 response	09/07/19	Fire prevention and mitigation plan and Environmental management system.
Variation determined EPR/NB3339RH	09/09/12	Varied permit issued.

End of introductory note

Notice of variation

Environmental Permitting (England and Wales) Regulations 2016

The Natural Resources Body for Wales (“Natural Resources Wales”) in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2016 varies

Permit number

EPR/NB3339RH

issued to:

Enviroclear Site Services Limited (“the operator”)

whose registered office is

Hafod Yard 1 & 2

Hafod Road Ruabon

Wrexham

Clwyd

LL14 6HF

company registration number **03986084**

to operate a regulated facility at

Hafod Yard Transfer Station

Hafod Road

Johnstown

Wrexham

LL14 6HF

to the extent set out in the schedules.

The notice shall take effect from 09/2019

Name	Date
Huw Davies	09/09/2019

Authorised on behalf of Natural Resources Wales

Schedule 1 – conditions to be deleted

None

Schedule 2 – conditions to be amended

The following conditions are amended as a result of the application made by the operator

Schedule 1 - Operations

Table S1.1 activities		
Activity reference	Description of activities for waste operations	Limits of activities
A1 Household, Commercial and Industrial Waste Transfer Station with Treatment & Asbestos Storage	<p>R13: Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced)</p> <p>D14: Repackaging prior to submission to any of the operations numbered D1 to D13</p> <p>D15: Storage pending any of the operations numbered D1 to D14 (excluding temporary storage pending collection on the site where it is produced).</p> <p>D9: Physico-chemical treatment not specified elsewhere in this Annex which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D12 (e.g. evaporation, drying, calcination, etc.)</p> <p>R3: Recycling/ reclamation of organic substances which are not used as solvents</p> <p>R4: Recycling/ reclamation of metals and metal compounds</p> <p>R5: Recycling/ reclamation of other inorganic compounds</p>	<p>All hazardous waste must be stored on an impermeable surface with sealed drainage.</p> <p>All non-hazardous waste may be stored and treated either within a building, or in bays with an impermeable surface with sealed drainage or in containers stored on an impermeable surface with sealed drainage.</p> <p>All inert waste may be stored and treated on hardstanding or on an impermeable surface with sealed drainage.</p> <p>Asbestos waste shall be double bagged and stored within clearly identified, segregated, secure, lockable containers on an impermeable surface with sealed drainage.</p> <p>The maximum quantity of hazardous waste that can be stored at the site in total for recovery or disposal, shall not exceed 50 tonnes at any one time.</p> <p>Treatment operations shall be limited to manual and/or mechanical:</p> <ul style="list-style-type: none"> - sorting and/or separation - screening - baling - shredding - crushing - compaction - bulking up <p>of non-hazardous or inert waste for the purpose of recovery or disposal.</p> <p>There shall be no treatment of hazardous wastes other than bulking up for onward transfer.</p> <p>Waste types as specified in Table S2.1</p>

<p>A2 Vehicle Depollution & Dismantling (Authorised Treatment) Facility</p>	<p>R13: Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced)</p> <p>R4: Recycling/ reclamation of metals and metal compounds</p> <p>R5: Recycling/ reclamation of other inorganic compounds</p>	<p>All waste must be treated on an impermeable surface with sealed drainage.</p> <p>Uncontaminated plastic, glass and ferrous and non-ferrous metal wastes arising from the treatment of End-of- life vehicles may be stored on hardstanding or an impermeable surface with sealed drainage system.</p> <p>All other wastes must be stored on an impermeable surface with sealed drainage system.</p> <p>Lead acid batteries shall be stored in containers with an impermeable, acid resistant base and a lid to prevent ingress of surface water.</p> <p>Treatment operations shall be limited to manual and/or mechanical:</p> <ul style="list-style-type: none"> - Depolluting of waste motor vehicles - sorting and/or separation - grading - baling - shearing (manual only) - crushing/compaction - cutting - bulking up <p>of permitted waste for the purpose of recovery only.</p> <p>Waste motor vehicles shall have their tyres removed before they are baled, crushed or compacted.</p> <p>The maximum quantity of hazardous waste that can be stored at the site in total for recovery or disposal, shall not exceed 10 tonnes at any one time.</p> <p>Waste types as specified in Table S2.2</p>
